We don't expect you to wait for your money

We all know there are those times when payday can't come quick enough, so to ensure there is no delay MyPay operates their payroll on a daily basis.

We also invoice the same day we receive your timesheet if you send it before 1pm, if you miss the deadline we will still try and do it the same day , but if not it will be completed the next business day.

This means the day MyPay get paid is the day that we pay you!

Who wants a pay rise?

We simply offset all of your genuine business expenses against both Tax and National Insurance Contributions (NIC) reducing your liability and increasing your take home.

A lot of our contractors liken our service to that of receiving a pay rise. But whereas a pay rise at work can often lead to more responsibilities and extra jobs, with MyPay your job stays the same.

More Money, No Worries

It's nice when you know you're safe

At MyPay we know the risk and worries that contractors face regarding IR35 and Managed Service Company legislation. As with all legislation it's open to interpretation so how do you know you're making the right choice?

Well by choosing MyPay you simply cannot go wrong regardless of your IR35 status and the new MSC legislation. Our business model is fully compliant with both legislations so you have peace of mind knowing you can't be wrong.

Full Peace of Mind

MyUmbrella, a service to smile about

We all know the frustrations of phoning up and being passed from pillar to post only to explain the exact same thing we explained to someone else 5 minutes earlier.

It is for this reason that when you use MyPay it is the same person who explains the service to you who will then be the person who looks after all aspects of your pay. This way they will know exactly what is happening with your pay at any given time and you only ever need to speak to the person you already know.

**Speak to someone you know
